# Teaching motivated students how to think using economics

Our goal is to turn out leaders that thrive in a world with increasing uncertainty and diversity.

Towards this end, our curriculum is designed to give students both knowledge and the ability to think logically.

A long tradition of professional education courses offered in small classes. Students study in depth in a specialized field for 2 years under the guidance of a specific faculty member and put together the results of their studies in a graduation thesis.

Independent research course in which students set their own theme and write a thesis over the course of one year. Research can be conducted not only in economics but also in other fields.

A small-group professional education course offered entirely in English. Students learn specialized knowledge and experience project-based classes.

## Two Certificate Programs: DEEP & FACTS

- DEEP (Data-driven Economics and Econometrics Program)
- FACTS (Fieldwork for Active Comprehension of Targeted Subjects)

Students who fulfill the requirements will be awarded a certificate.

## Introduction of 3.5-year Early Graduation System

A 3.5-year early graduation system has been put in place since the 2023 academic year, which allows students to graduate after 3.5 years (7 semesters) of enrollment. Objective

- •To encourage April enrollees (Type AB students) to pursue their graduate studies abroad
- •To encourage September enrollees (PEARL students) to find employment in Japan
- •To implement an internal 5-year BA/MA program of 3.5 years + 1.5 years in collaboration with the Graduate School of Economics

02 Faculty of Economics Keio University 03

## Program in Economics for Alliances,

The PEARL program aims to develop leaders who can build economic alliances in Asia and beyond, and who will make the Faculty of Economics at Keio a global hub of education and

## Research,

By following Keio's tradition of "han-gaku, han-kyo" (learning while teaching, teaching while learning). professors and students produce intellectually stimulating research.

## and Leadership

As intended by our founder, Yukichi Fukuzawa, our graduates come from all over the world to become people who will shape the future.

## Admissior

https://www.keio.ac.jp/en/admissions/undergraduate/pearl/

- Three application periods between October and April
- •No interview conducted. No need to come to Japan for the exam.

#### **Application Documents**

- 1 Academic Background and Brief Self Introduction
- 2 IB/SAT/ACT
- 3 TOEFL/IELTS
- 4 Written Statement of the Applicant's Academic and Future Goals
- 5 Two-minute Video
- 6 Letter(s) of Reference
- 7 High School Graduation Certificate (or a document certifying expected graduation)
- 8 High School Academic Transcripts
- 9 Document Confirming Applicant's Identity
- 10 Applicant's Photo
- 11 Other optional materials

#### **Fulfilling options for** studying abroad

We have a wide variety of study abroad programs, such as the Double Degree Program where students are awarded degrees from both the Faculty of Economics at Keio and a partner university by satisfying the graduation requirements of both institutions, and BA/MA Five-Year Program where students are awarded a bachelor's degree from Keio and a master's degree from a partner university. Also, we offer faculty-wide exchange programs which provide students with the opportunity to study at an overseas university for one or two semesters.

## **BA/MA Five-Year**

**Program** 

The Faculty of Economics has agreements with HEC Paris (France), Sciences Po (France), Bocconi University (Italy), the University of Cologne (Germany), Brandeis University (USA) and the Stevens Institute of Technology (USA) for the BA/MA Five-Year Program. Students of the Faculty of Economics' PEARL program who satisfy the graduation requirements are awarded a BA in Economics degree from Keio and a master's degree from a partner university.

#### Campus life in Tokyo and Kanagawa

Japan is one of the safest countries in the world. Tokyo and Kanagawa, located in central Japan, are part of a large metropolitan area that has easy access to many places not only in Japan, but also in the rest of Asia. The Faculty of Economics at Keio has campuses in both Tokyo and Kanagawa, and its students benefit from the convenience of these urban areas.

# PEARL was founded to foster true global leaders.

Just like a pearl oyster covers a grain of sand with many layers of nacre to create a pearl that grows in beauty and lustre, the name of our program, PEARL, reflects our goal of nurturing students with keen minds through the highest standard of learning.

By offering a world-class education in advanced economics in English, students from Japan and around the world can interact and learn together. PEARL is designed to foster the global leaders of tomorrow.

#### **All-English Program that** starts in September

Admission to PEARL is limited to 100 students each year. PEARL is an all-English four-year elite BA program in economics with an academic year that begins in September.

#### Learning the essentials of economics

The first two years of the PEARL program at our Hiyoshi Campus are designed to provide students with a strong grounding in the fundamental knowledge necessary to pursue their individual paths of study. Students then go on to study at our Mita Campus for their third and fourth years to develop their expertise and broaden their

#### A research system that enables you to deepen your understanding of your field of interest

The pursuit of small-group education is a feature of Keio University. In the Faculty of Economics, small group education includes Research Seminars and Independent Research Projects where you can devote yourself to completing a research thesis on your topic of interest.

04 Faculty of Economics Keio University 05

# Be a leader who utilises his / her knowledge of economics

on the world stage

The Faculty of Economics has three different types of study abroad programs which are available only to students in the Faculty of Economics: faculty-wide exchange programs, double degree programs, and BA/MA five year programs.

The flow of those three programs are shown below.

The following chart applies to PEARL students who start an academic year in September.

(Students who passed other types of admission examinations enter university in April.)

https://www.econ.keio.ac.jp/en/undergraduate/abroad

Germany / University of Cologne

#### **Academic Year Starts** in September

#### **Double Degree Program**

Students who satisfy the graduation requirements of two universities will be awarded two Bachelor's degrees; one from Keio University and one from a partner university.

#### Student Exchange Program (Faculty-wide)

All students study at our two campuses.

In our Student Exchange Program, students have various choices of host universities, duration, and timing on their exchange. We have agreements with a total of 32 universities in North America, Europe and Asia (as of April, 2025).

### BA/MA 5-Year Program

Students who satisfy the graduation requirements will be awarded a Bachelor of Arts in Economics from Keio and a master's degree from a partner university in five years.

#### Bachelor's Program

YEAR 2 YEAR 1

Study at Sciences Po

#### Hiyoshi Campus

During the first and second year, in addition to liberal arts, students will learn the principles of economics.

- Introduction to Economics
- Languages
- History
- Mathematics
- Liberal Arts

Student Exchange Program

France / Sciences Po

YEAR 3

YEAR 4

YEAR 5

Master's Program

YEAR 6

Study at Bocconi

Mita Campus In the third and fourth year, students study specialised subjects.

- Economic TheoryEconometrics
- Economic History
   International Economics
- Economic Policy
- Environmental Economics

Students have three major options for a specialised study: Research Seminars, Independent Research Projects, and the Professional Career Program (PCP).

Students can choose a duration of one year or one semester, and when to start their study abroad; from their second year, third year, or fourth year.

#### Study at Sciences Po

All Double BA graduates will automatically be entitled to be admitted to a Master's Program at Sciences Po.

At Keio, applications for the Master's Programs will follow the usual procedures and admissions will follow the usual rules.

The Faculty of Economics and the Graduate School of Economics, Keio University also have their own BA/MA 5 Year

The Graduate School of Economics, Keio University offers Double Master's Degree Programs with Brandeis University and CEMS.

#### Study at a partner institution

Part of BA/MA program with Bocconi University, Brandeis University, HEC, Sciences Po, Stevens Institute of Technology and the University of Cologne.

06 Faculty of Economics Keio University 07

## Learn and live in central Tokyo

Academic fees:

1,468,350 YEN (First year)

Although it is said that commodity prices in Japan are unusually high, students can find ways to keep their costs down, for example by taking advantage of the university's facilities. There are several cafeterias on the Hiyoshi and Mita campuses, which provide delicious and reasonable dishes. If you are looking for a place to stay, don't forget to check out the Keio University dormitories. https://www.keio.ac.jp/en/student-life/housing.html

# Keio Living Expenses (rough estimate based on the 2024 Fact sheet)

Taking utilities, food, clothes, transportation, books and miscellaneous expenses into consideration, monthly living costs will be approximately ¥130,000 - ¥170,000.

## Developing the intellect essential for a "leader of society"

"A leader of society". I have determined to

apply to this program with the word of Keio founder Yukichi Fukuzawa in mind.

The perspective of 'Asia from outside' through the curriculum at the Asia/pacific-focused campus, the ability to tackle global issues from a multidimensional approach through studying a broad range of topics on sociology, and the experience of learning together with students at a top Grande école in France:

They are all invaluable opportunities for anyone aspiring to be a "leader of society".

For motivated students with an adequate passion, I guarantee that four years of a promising and fulfilling environment will be set for you.

## The program for students with little previous overseas experience

I gained a lot from not having any previous overseas experience. Especially, it was striking to experience the circumstances of being placed in a vulnerable position in various situations, from friendships to academics. I realized firsthand that success in society often heavily relies on background conditions beyond individual efforts and abilities. At the same time, I felt the potential to overcome language and cultural barriers through creativity, which deepens my confidence. Good luck to those of you all embarking on their first overseas journey through this program!

## Opportunity to grow yourself with "another family"

A wonderful opportunity to learn in an environment where you can interact with peers who come from diverse backgrounds and hold diverse opinions. While living abroad can pose many challenges, we support each other in both academic and personal aspects, creating a sense of global family and fulfilment. Furthermore, I also enjoy the pedagogical approach at Sciences Po, exploring a given topic through the exchange of personal viewpoints and those of peers. It's not just about academic skills; it's also an excellent chance for personal growth. I highly recommend it to those who are looking for these types of learning experiences.

#### My PEARL Life at Keio

My passion for the Japanese culture, especially the cuisine and fashion, led me to Japan. As I wanted to pursue economics, Keio's PEARL was the most attractive destination. In addition to the rigorous curriculum, PEARL provides many other opportunities such as double degree programs with other world class universities and a path to the CEMS program.

One aspect I like about PEARL is the liberty to take classes from other faculties as well as those offered by the International Center. I enjoy

Enrolled in AY 2019 Maryann Gicheru

taking courses that are in areas of my interest such as in philosophy, fashion, and the arts.

During my first and second years, I also participated in an international exchange session organized by the Institute of International Relations. This gave me the pleasure of meeting other international students at

In the future, I intend to help Japanese companies find projects in African countries to support. While many companies are willing to help alleviate social issues in Africa such as poverty, they often face the challenge of choosing the right and most efficient path to do so. I wish to act as a bridge for them to identify projects that align with their values

I would like to encourage future PEARL students to take advantage of being in this diverse and multicultural environment. This is your opportunity to build networks with students from different countries, which will endure long even after your student life at Keio.

#### Career path after graduation

The employment rate for graduates of the faculty is high, with approximately 30% of the 2024 graduates employed in scientific research / professional and technical services followed by the finance and insurance, and the information and communications industries.

## Message from the Dean

Dean of the Faculty of Economics Professor Hiroki Kawai

### Braving the Challenges of the New Era with the Spirit of Independence and Self-Respect

The Keio University Faculty of Economics has the longest history in Japan among faculties that specialize in economics. Our faculty has been at the forefront of the study of economics in Japan since its establishment in 1890 as the Department of Economics. Our pedagogy is rooted in the ethos of hangaku-hankyo, or "learning while teaching, teaching while learning," whereby pupil and teacher learn from each other, and we continue to produce many outstanding graduates who hold positions in various fields including business, academia, politics, and government.

The Keio University Faculty of Economics not only adheres to tradition, but also continues to evolve in response to internal and external developments. Since entering the 21st century, the faculty has focused its efforts on globalization, expanding its study abroad programs, implementing double degree programs with overseas universities, and establishing the Professional Career Program (PCP), which provides a practical education in economics in English While the faculty is large in scale, it also provides more intimate educational settings through its Research Seminars, General Education Seminars, and Independent Research Projects. In addition, from the 2022 academic year, the faculty began offering the Data-driven Economics and Econometrics Program (DEEP) and the Fieldwork for Active Comprehension of Targeted Subjects (FACTS) program to enhance expertise in data science and field research respectively. From the 2026 academic year, the faculty will launch the Plurilingual and Pluricultural Studies, a program for advanced learning of a wide range of foreign languages.

These efforts demonstrate our faculty's commitment to the continuous development of educational programs for the cultivation of future experts who will lead the economy and society.

The Keio University Faculty of Economics offers such rich educational programs with the commitment of its excellent researchers. Our staff are leaders in academia making valuable contributions to the real world, not only in economics, but in a range of other fields. Our team of researchers are passionate about higher education and will do their utmost to support your growth here at the Faculty of Economics.

Confronted by pandemics, conflicts around the world, a rapidly aging population, and the dramatic advancement of Al technology among other trends, the constant need for social reform cannot be understated. Remaining complacent in the old ways can only lead to future decline.

In these times, we should not leave it to others to take initiative. Instead, we should look toward the fundamental spirit of "independence and self-respect," a key ethos of Keio University, as our guiding principle. Independence and self-respect signify "the maintenance of one's personal dignity and acting on one's own judgement with the responsibility this entails in everything." In order to tackle challenges never encountered previously and to build a better society, we need each and every individual to actively express their thoughts and opinions.

To present convincing arguments, we will require not only the knowledge accumulated by our predecessors, but also the power of both traditional wisdom and new insights, integrated with novel technologies. At the Faculty of Economics, we believe in the potential of our students and their ability to learn this wisdom through their interactions with a diverse cohort, becoming leaders who will take on the challenges of our new and yet uncertain era.

10 Faculty of Economics
Keio University
